SUBJECT: Report of "Flying Discs"

TO: Chief of Staff
United States Air Force
Washington 25, D. C.
ATTN: Director of Intelligence,
Requirements Division

1. In compliance with paragraph 1a, ADC Letter 45-5, 25 March 1948, the following information relative to "Flying Discs" is hereby submitted. The attached report was received this Headquarters 27 May 1948, from Special Agent, D.K. Brown, Federal Bureau of Investigation, Cleveland, Ohio. This Headquarters has no further information and is not initiating any investigation in accordance with paragraph 2, ADC Ltr. 45-5. Any additional information received by this Headquarters will be immediately forwarded to your Headquarters. Copies of report have been forwarded to Hq. Air Materiel Command and Hq. Air Defense Command as directed in above mentioned directive.

a. Location and time of sighting - Hobson, Ohio; night of 8 May 48.

b. Weather at the time - unknown by this Hq.

c. Names, occupations, and addresses of witnesses - Addresses unknown.
Ben Rupe, New York Central System Car Inspector
Earl Roush, " " " " "
Bob White, Yard Clerk, N.Y.C.
C. K. Hite, Patrolman, N.Y.C.

d. Photographs of objects, if available - unknown this Hq.

e. Sketches of objects configuration - unknown this Hq.

f. Objects sighted:

(1) Number - not known this Headquarters

(2) Shape - round

(3) Size - appeared to be nine inches in diameter from ground level.

CONFIDENTIAL

EAFD
Subj: Report of "Flying Discs"

(4) Color - phosphorescent

(5) Speed - Great amount of speed

(6) Heading - 90°

(7) Manueverability - not known

(8) Altitude - 6 to 8 miles

(9) Sound - unknown to this Hq.

(10) Exhaust trail or not - Phosphorescent trail in the sky

"Flying Disc"

Commanding General
Army Air Forces
Washington 25, D. C.

ATTN: AC/AS-2
Major General George McDonald

1. In compliance with General McDonald's telephone conversation, this date, to Colonel H. M. McCoy, T-2, Hq. AMC, attached herewith is a copy of a drawing entitled, "Loedding Flying Disc", designated LD-2. Because of patent rights involved, it is requested that a record be kept of all persons reviewing this drawing by witnessing with signatures and dates directly on the drawing.

2. This drawing should be returned to this office when it has served its purpose so that it can be turned over to the Patent Office Hq. AMC for official record.

3. Inclosed herewith is also a report prepared by the Royal Aircraft Establishment, Technical Note, AERO 1703, which describes the Horten tailless aircraft. The following references are invited which is considered significant in relating the Horten brothers perspective thinking and accomplishments toward the alleged "Flying Saucer" case:

a. Page 5, Paragraph 4 and 6.

b. Page 6, Paragraph 1 and 7.

c. Page 26, Paragraph 3 and 10.

d. Page 27, Paragraph 12.

e. Page 28, Paragraphs 1 through 5.

f. Page 54, Photograph of Horten "Parabola".

~~SECRET~~

U-39942

Basic ltr, dtd 24 Sep 47, to CG, Hq AAF, Wash, subj: "Flying Disc"

g. Page 69, The Horten VIII.

h. Pages 71 and 72, Photographs of the Horten IX Versions.

i. Page 74, Drawing of the "Parabola".

This document should also be returned when it has served its intended purpose.

4. A recent report from the U. S. Military attache, Moscow, USSR, dated 9 June 1947, indicates that 1500 aircraft, directly or indirectly based on the Horten VIII design (six engine pusher, having a wing spread of 131 feet and a gross weight of approximately thirty-three thousand pounds) are being built for bomber squadron use. The Russian version, however, is jet propelled, reference report whose identification No. is V-32291-S.

5. The T-2 report "German Flying Wings Designed by Horten Brothers", No. F-SU-1110-Nd, also inclosed herewith, may be retained by your office if desired.

COMMENT No. 1
Lt.Col.Garrett/dk/4544

1. It is Air Force policy not to ignore reports of sightings and phenomena in the atmosphere, but to recognize that part of its mission is to collect, collate, evaluate, and act on information of this nature.

2. In Implementing this policy the Air Materiel Command has been designated the Air Force agency to collect, collate, evaluate, and distribute to interested government agencies and contractors all information concerning sightings and phenomena in the atmosphere which can be construed to be of concern to the national security.

3. All Air Force installations within and outside Zone of Interior and Alaska have been instructed to report all sightings, or information concerning sightings which comes to their attention, direct to the Commanding General, Air Materiel Command, Wright-Patterson Air Force Base, Dayton, Ohio, Attn: MCI.

4. Air Materiel Command has been authorized direct contact with all Air Force installations whenever required to develop additional information on the flying discs.

5. It is requested that all Department of the Army installations also be instructed to report such occurrences directly to Air Materiel Command and that they be informed that Air Materiel Command is authorized to contact them direct when necessary in connection with such occurrences.

6. If possible, reports to Air Materiel Command should include the following information:

a. Location and time of sighting
b. Weather at the time
c. Names, occupations, and addresses of witnesses
d. Photographs of objects, if available
e. Object sighted:
(1) Number (4) Color (7) Maneuverability (10) Exhaust trail or not

Washington, D. C.
ATTN: Directorate of Intelligence
Air Intelligence Requirements Division

1. Incident reported on 9 March 1948, this headquarters, per telephone call from Sgt. A. M. Larsen, Sheriff's office, Bakersfield, California.

a. Observation by Mr. Les Buchner, Bakersfield, California, of two objects falling to earth from unknown source on 5 March 1948 between 1610 and 1655 hours. Description of objects similar to falling aircraft with smoke and debris trailing. Observation made at Bakersfield with objects sighted southwest toward Buena Vista Lake, California.

b. Observation by Mr. Denio, employee of the Pacific General Electric Company, Bakersfield, California, of two objects which fell to earth from unknown source north of Bakersfield, California, 8 March 1948. One object seemed to be on fire with red and black smoke trailing behind.

2. Informant Larsen stated that searching parties, aircraft and rescue units have made numerous attempts to locate these reported objects without success.

3. Investigation of incident has been initiated by this headquarters. Report will follow.

17 MAR 1948

SUBJECT: Flying Discs

TO: Commanding General
Air Materiel Command
Wright-Patterson Air Force Base
Dayton, Ohio
ATTN: MCI

1. Reference is made to Colonel McCoy's informal proposal that certain fighter aircraft be maintained on a continuous alert status, within the Zone of the Interior, to aid in gathering information on Flying Discs.

2. This proposal is considered unfeasible for the following reasons:

a. The outlay of aircraft and personnel would be too great in relation to the results obtained.

b. Proper interception is not possible, except by accident, without complete radar coverage. The Air Force is incapable of providing such coverage.

c. It is doubtful if fighter aircraft would be able to follow up reports emanating, for the most part, from civilian sources.

SUBJECT: Flying Discs

TO: Director of Plans and Operations

DATE 12 FEB 1948

COMMENT No. 1

FROM: Director of Intelligence

Lt. Col Garrett/lwd/4544

1. By letter from this Headquarters, dated 30 December 1947 with subject as above, the Commanding General, Air Materiel Command is instructed to "set up a project whose purpose is to collect, collate, evaluate and distribute to interested government agencies and contractors all information concerning sightings and phenomena in the atmosphere which can be construed to be of concern to the national security".

2. The Commanding General, Air Materiel Command feels that the responsibility assigned to him for collecting and developing information and intelligence on the "flying discs" should be complemented by a requirement that all Air Force installations in the United States and Alaska provide a minimum of one each fighter or night interceptor type aircraft, with necessary crews, on a continuous alert basis. These aircraft should be equipped with gun camera, and such armament as deemed advisable, in order to secure photographs necessary to the obtainment of all possible data on any reported and sighted unusual phenomena, of the "flying disc" type, in the atmosphere.

3. It is envisaged that each Air Force installation maintaining aircraft on an alert basis for this purpose would investigate all unusual flying objects reported from any source in any area over which it has cognizance. Such a program would obviously require a detailed Standard Operating Procedure, in the preparation of which Air Materiel Command should cooperate.

4. Your comments and/or concurrence are requested.

DATE 3 MAR 1948

COMMENT No. 2
Major Cook:csk 72233

FROM: Director of Plans and Operations

1. The proposal of Air Materiel Command for stationing fighter aircraft at all bases on a continuous alert status is not considered feasible for the following reasons:

a. The outlay of aircraft and personnel would be too great consistent with the results to be obtained.

b. Proper interception is not possible, except by accident, without complete radar coverage which the Air Force is not capable of providing.

c. It is doubtful if fighter aircraft would be able to follow up reports emanating, for the most part, from civilian sources.

2. It is recommended that Air Materiel Command's responsibility for "collecting" information on unusual phenomena in the atmosphere be confined to the establishment of direct channels for the receipt of such information.

3. It is further recommended that in lieu of the proposal of Air Materiel Command, all other major commands be directed to cooperate with Air Materiel Command and to channel information directly to that command.
